Environmental - Grade 1

Question Paper

1. What can affect the pH of soil?

- A. Fertilizers
- B. Sunlight
- C. Clouds
- D. Rainfall

2. What is the name of the visible mass of liquid droplets or frozen crystals suspended in the atmosphere?

- A. Winds
- B. Hail
- C. Dust
- D. Fog

3. When walking in the darkness we use ____ to give is light

- A. Sun
- B. Moon
- C. Torch
- D. Fire

4. How can enterprises support local communities through social initiatives?

- A. By providing employment opportunities
- B. By causing social conflicts
- C. By ignoring community needs
- D. By promoting unsustainable practices

5. What is the purpose of stems in plants?

- A. Absorb water
- B. Store food
- C. Transport water and nutrients
- D. Anchor the plant

6. Which of the following practices can help conserve water in Kenyan schools?

- A. Having long water breaks between classes
- B. Running the school fountain all day
- C. Encouraging students to use water wisely
- D. Using sprinklers to water the school field

7. How can resolving conflicts peacefully impact the social environment at home?

- A. Create a hostile environment
- B. Promote understanding and harmony
- C. Promote aggression
- D. Ignore conflicts

8. Which one is not a domestic animal

- A. cow
- B. sheep
- C. zebra
- D. goat

9. Transport by water uses

- A. vehicle
- B. ship
- C. train
- D. aeroplane

10. Which animal is known for its ability to migrate long distances in search of food and water sources?

- A. Elephant
- B. Giraffe
- C. Lion
- D. Zebra

11. clay soil is ____ in colour

- A. black
- B. yello
- C. red
- D. brown

12. We water plants when it is

- A. rainy
- B. windy
- C. cold
- D. hot

13. _____ water is not used for drinking.

answer choices

- A. River
- B. Hand-pump
- C. Sea
- D. Well

14. We eat ____ of a sugarcane

- A. roots
- B. leaves
- C. fruits
- D. stem

15. Soil is found on the

- A. garden
- B. water
- C. sky
- D. ground

16. Which animal is known for its ability to trumpet loudly and flap its ears to cool down?

- A. Giraffe
- B. Elephant
- C. Lion
- D. Zebra

17. A dirty home can make us

- A. happy
- B. good
- C. grow old
- D. sick

18. What can you do to conserve light energy when studying at night?

- A. Use high wattage bulbs
- B. Use a reading lamp with an LED bulb
- C. Leave the door open to let light from other rooms come in
- D. Keep all lights on in the room

19. What is the name for the layer of gases in the atmosphere that contains charged particles and reflects radio waves?

- A. Ionosphere
- B. Exosphere
- C. Troposphere
- D. Stratosphere

20. Why is soil considered a non-renewable resource?

- A. Because it is constantly produced by nature
- B. Because it is not essential for plant growth
- C. Because it takes a long time to form
- D. Because it can be replenished quickly

21. Which approach is most aligned with the concept of social enterprise projects in environmental conservation?

- A. Short-term profit-driven initiatives
- B. Community-led sustainable development projects
- C. Exclusive luxury tourism ventures
- D. Industrial projects with no regard for environmental impact

22. How can individuals help in protecting marine ecosystems?

- A. Using non-biodegradable products
- B. Dumping oil spills in oceans
- C. Overfishing marine species
- D. Reducing plastic waste

23. Which of the following is a type of weather often characterized by low visibility due to suspended water droplets?

- A. Foggy
- B. Rainy
- C. Snowy
- D. Sunny

24. What is the top layer of soil called?

- A. Topsoil
- B. Bedrock
- C. Subsoil
- D. Humus

25. What is the name for a plant that lives for more than two years and produces seeds?

- A. Perennial
- B. Annual
- C. Monocot
- D. Biennial

26. The main source of light is

- A. stars
- B. Sun
- C. Torch
- D. moon

27. Which of the following is a renewable source of light energy?

- A. Natural gas
- B. Petroleum
- C. Sunlight
- D. Coal

28. What role do family meals play in the social environment at home?

- A. Increase noise pollution
- B. Promote bonding and communication
- C. Cause conflicts
- D. Isolate family members

29. The moon is seen during the

- A. rain
- B. cloudy weather
- C. day
- D. night

30. _____ is the basic need of our life.

- A. Rocks
- B. Stones
- C. Water
- D. Light

31. Which water source should be conserved to ensure a sustainable future?

- A. Conserving groundwater
- B. Dumping waste in rivers
- C. Polluting lakes
- D. Wasting tap water

32. What is the function of a plant's roots?

- A. To make food
- B. To protect the plant
- C. To attract bees
- D. To absorb water

33. What is the purpose of plant stems?

- A. Store food
- B. Anchor the plant
- C. Absorb water
- D. Transport water and nutrients

34. How can enterprise projects promote social inclusion?

- A. By increasing social divides
- B. By creating equal opportunities for all
- C. By discriminating against marginalized groups
- D. By ignoring diversity and inclusion practices

35. Keeping the environment clean makes us

- A. ugly
- B. healthy
- C. good
- D. beautiful

36. Child rights include the following except

- A. Education
- B. Security
- C. snacks
- D. Good health

37. seeds are found inside

- A. roots
- B. leaves
- C. fruits
- D. flowers

38. What is the color of healthy soil?

- A. Purple
- B. Orange
- C. Red
- D. Black

39. Which of the following is NOT a source of water pollution?

- A. Oil spills in oceans
- B. Using eco-friendly products
- C. Industrial waste discharge
- D. Dumping chemicals in rivers

40. What is the name of the layer of the atmosphere closest to Earth's surface?

- A. Ionosphere
- B. Troposphere
- C. Mesosphere
- D. Exosphere

41. Which animal is known for its ability to use their tusks to dig for roots and fend off threats in the wild?

- A. Lion
- B. Elephant
- C. Giraffe
- D. Zebra

42. We can water plants using the following except

- A. watering can
- B. hosepipe
- C. bucket
- D. cup

43. What is the name for the liquid form of water that falls from the sky under certain weather conditions?

- A. Hail
- B. Sleet
- C. Rain
- D. Snow

44. Which animal is known for its long ears and memory?

- A. Elephant
- B. Zebra
- C. Giraffe
- D. Lion

45. How can enterprises promote social inclusivity in their projects?

- A. By excluding marginalized communities
- B. By discriminating against certain groups
- C. By exploiting vulnerable populations
- D. By promoting diversity and equal opportunities

46. Vegetables we eat include the following except

- A. cabbage
- B. spinach
- C. mango
- D. carrots

47. Which animal is known for its ability to communicate through a series of grunts and snorts?

- A. Elephant
- B. Giraffe
- C. Lion
- D. Zebra

48. How can enterprise projects contribute to poverty alleviation?

- A. By neglecting marginalized communities
- B. By focusing solely on profit margins
- C. By increasing income inequality
- D. By creating job opportunities and economic empowerment

49. Which type of light source consumes the most energy?

- A. Fluorescent tubes
- B. Incandescent bulbs
- C. LED lights
- D. Halogen lamps

50. When light is not in use we should

- A. Play with it
- B. Disconnect
- C. Leave it
- D. Switch off
